EXPERIENCE

Web Developer

CodSoft Jul 2023 - Aug 2023

- Integrated ThreeJS and React Three Fiber to create a captivating portfolio experience featuring 15 unique 3D models with graphics and animations.
- Leveraged ReactJS and TailwindCSS to build a clean, responsive, and user-friendly interface.
- Utilized Framer Motion for smooth and performant animations, enhancing user experience.
- Demonstrated proficiency in web hosting by successfully deploying the website.

Web Developer

Oasis InfoByte Aug 2023 - Sep 2023

- Crafted a mobile-first, fully responsive website using HTML and CSS, ensuring optimal viewing experiences across all devices and screen sizes.
- Leveraged Bootstrap to expedite development, utilizing its extensive library of components and grid system for consistent styling and layout.
- Applied custom CSS to tailor the website's aesthetics beyond Bootstrap's default styles, aligning the design with specific branding requirements.

PROJECTS

PetSpree

FullStack Developer Jun 2025 - Jun 2025

- Technologies Used:** PetSpree is developed using **React**, **Tailwind CSS**, and **Framer Motion**, combining component-based architecture, responsive design, and smooth animations to deliver a modern and engaging user experience.
- Project Purpose:** It serves as a breed-specific e-commerce platform where users can browse and buy carefully curated dog products tailored to various breeds, offering a personalized shopping experience for pet owners.
- Skill Showcase:** This project highlights advanced **frontend development skills**, including clean UI design, interactive animations, and effective state management, making it a practical and visually polished demonstration of web development proficiency.

Resume Builder

Fullstack Developer Jan 2024 - Apr 2025

- Technologies Used:** Developed using **Strapi**, **ReactJS**, **Vite**, **Shadcn/UI**, **Axios**, and **Clerk**, combining a headless CMS with modern frontend technologies to deliver a seamless and secure resume-building platform.
- Project Purpose:** An AI-powered application designed to help users create **ATS-friendly resumes**, improving job application success rates by up to **50%**, while also reducing development time by **60%** through efficient backend architecture.
- Skill Showcase:** Demonstrates fullstack expertise with secure **API handling**, **user authentication**, and a responsive, **user-friendly interface**, showcasing strong design practices, performance optimization, and practical deployment.

Chat App

Fullstack Developer Apr 2024 - May 2024

- Technologies Used:** Built with the **MERN stack**, incorporating **Socket.io**, **TailwindCSS**, and **Daisy UI** to enable a responsive and real-time messaging platform with sleek UI components.
- Project Purpose:** Designed to provide secure, **real-time communication**, the app allows users to interact instantly with features like online user tracking, authentication, and error-handled messaging for a smooth experience.
- Skill Showcase:** Highlights expertise in **JWT-based authentication**, **Zustand for state management**, and **Socket.io** integration, demonstrating practical skills in backend logic, frontend design, and scalable web architecture.
